Center for Advanced Training in Hemophilia and Inhibitor Management (CATHIM)

October 20-22, 2017

Please join us for an educational workshop focused on the care of patients with hemophilia and inhibitors. The target audience is physicians in adult and pediatric hematology fellowships, trainees in hematology and immunology and Advance Practice Nurses. The purpose is to provide a focused, hands-on workshop with the goal of inciting interest in the field of coagulation medicine in the attendees, and to fill a gap that exists in many current hematology training programs with respect to managing patients with complex hemostatic disorders. This educational program will be organized and coordinated by the Nationwide Children’s Hospital Pediatric Hematology Division and its affiliated institution, Ohio State University School of Medicine.

Hosted by
Amy Dunn, MD, and Nationwide Children's Hospital
